

## CASEMENT'S PLAN SYSTEMATIC REBELLION IN IRELAND

London, May 16.—Part of the carefully laid plans by which Sir Roger Casement and his confederates plotted to set up an independent republic in Ireland revealed Monday when Sir Roger was brought from the Tower of London for a preliminary hearing on Bow street police court.

The German auxiliary that accompanied Casement and his comrades aboard the submarine U-19 to the Irish coast carried arms and munitions sufficient to equip a large force of rebels, Att'y Gen. Smith declared. When the auxiliary was sunk by a British patrol boat she carried to the bottom a million rounds of ammunition, 20,000 rifles, ten machine guns and many bombs. These were to have been distributed to rebel hands counted upon to rise and join Sir Roger in a victorious march on Dublin.

In the prisoner's dock with Casement today was Daniel Bailey, formerly an Irish soldier, who was captured by the Germans. Bailey was induced by Casement in a visit to his prison camp to join in his expedition to Ireland and with Casement went ashore from the U-19 in a collapsible boat. Bailey was arrested on the charge of high treason April 21, but his arrest was kept secret.

At the conclusion of a formal accusation against Casement, who squirmed nervously throughout most of the session, Att'y Gen. Smith exhibited a flag of the "Irish republic," which he said Casement carried ashore with him when he landed and had buried in the sand near Tralee.

Santo Domingo. — Rebel forces having retired from capital under threat of American intervention, Dominican congress is preparing to elect successor to President Jimenez, who resigned while revolt was in progress.

## ORGANIZATION MEETING FOR RESTAURANT EMPLOYEES

Cooks' assistants, porters, bus boys, scrubwomen, yard men, firemen, pan and dishwashers, laundry workers, chambermaids, chicken butchers, checkers and cashiers are being urged to attend a mass meeting at which a gigantic effort will be made to weld into a solid organization the miscellaneous employees of hotels, restaurants and cafeterias.

The meeting will be held at 234 W. Randolph st., Friday night. Speakers in many languages will preach the slogan of "One day's rest in seven."

The movement is fostered by the Cooks' and Pastry Cooks' ass'n.

## HEAD OF CHI. WAITERS' ASS'N EXPLAINS HIS SIDE OF IT

Benj. Parker, president of the Chicago Waiters' ass'n, read the letter of Sam Scarlett, I. W. W. organizer, in which Scarlett criticized the waiters' ass'n for settling the Messinger lunchrooms strike, and had this to say:

"We secured full union working conditions and wages for waiters and cooks, along with the improvement in wages and working conditions which the dishwashers and scrubwomen demanded.

"Our agreement with Messinger reduced the working hours in his 18 lunchrooms from 84 to 60 hours a week and secured at the same time a wage raise averaging about \$2 a week.

"We would have secured this agreement two years ago if it had not been that the same workers who are howling now were the ones who at that time went into the Messinger lunchrooms and acted as strike-breakers. We have no union for porters, scrubwomen, etc."

The Cooks and Pastry Cooks' union is now beginning a campaign for organizing the restaurant and hotel workers who are not cooks or waiters.
